

*Finding your ring size is easy!*

### **Step 1: Print This Document**

Make sure this document prints to scale at 100%. Once it prints, measure the ruler on this page to ensure they are exactly 3 inches.

### **Step 2: Cut Out Ring Sizer**

Once the scale is confirmed, start cutting! Cut out the ring sizer below, then cut a slit where indicated.

### **Step 3: Measure Your Finger**

The fun part: wrap the ring-sizer around your finger (like a ring) with the numbers facing out. Slide the narrow end through the slit you have created. Gently pull until the ring sizer is snug around the largest part of your finger.

Read the number that lines up at the slit - this is your ring size!

### **Step 4: Order your ring with confidence!**

For accurate measurement, print to scale at 100%.

The below line should measure exactly 3" inches
